

Successful Searching

Objectives

- managing your library account: renewing items and requesting ;
- finding books and ebooks;
- finding journals and articles;
- using databases;
- an opportunity to ask about any specific difficulties you have experienced.

Managing your library account in iDiscover

To access your library account, *either*:
Login to iDiscover and then select 'My Library Account';
Or log straight into 'My Library Account' here

The screenshot shows the iDiscover website interface. At the top, the University of Cambridge logo is on the left, and navigation links for IDISCOVER, HELP & CONTACT US, and E-JOURNAL SEARCH are in the center. On the right, there is a 'Login to iDiscover' link circled in red, and a 'Menu' dropdown arrow. Below the navigation bar, the iDiscover logo is prominently displayed. A search bar is present with radio buttons for 'Cambridge Libraries Collections', 'Articles and online resources', and 'Search everything'. Below the search bar, there is a search input field and a search button. To the right of the search bar, there are links for 'Advanced Search' and 'Browse'. A dropdown menu is open on the right side, showing the user's name 'SIGNED IN AS: Hughes Samantha' and a 'SIGN OUT' link. Below this, the menu items are: 'My Library Account' (highlighted in grey), 'My Loans', 'My Requests', 'Saved items', and 'Search history'. A red arrow points from the 'Login to iDiscover' link to the 'My Library Account' menu item. Another red arrow points from the 'My Library Account' menu item to the 'Log in to MY LIBRARY ACCOUNT' link in the 'Which login do I use?' section. This link is also circled in red. The 'Which login do I use?' section contains two bullet points: 'Log in to MY LIBRARY ACCOUNT to manage your loans, requests and renewals.' and 'Log in to iDiscover to save pinned items (favourites), to make requests and to renew items on loan. Place the cursor on 'Login to iDiscover' and log on.'

Finding printed books and ebooks

- Simple search for a known title
- Limit a search using facets
- Advanced searches
- Using subject headings to search by subject

Looking for:
Bruce Alberts and others,
Molecular biology of the cell, 6th ed. 2015, Garland Science

‘Simple’ search:
Type the book title in the search box, and press enter

Add the author’s name to reduce the number of results

The screenshot shows the iDiscover search interface. At the top, there are navigation links for 'UNIVERSITY OF CAMBRIDGE', 'iDiscover', 'IDISCOVER', 'HELP & CONTACT US', 'E-JOURNAL SEARCH', and a user profile for 'Hughes, Samantha'. The search bar contains the text 'molecular biology of the cell' and a dropdown menu set to 'All Libraries'. Below the search bar, there are radio buttons for 'Cambridge Libraries Collections', 'Articles and online resources', and 'Search everything'. The search results are displayed in a list format, with the first result being a journal article titled 'Molecular biology of the cell' by the American Society for Cell Biology. The results are filtered to show 'Available in the Library' (842) and 'Online resources' (3,004). The 'Resource Type' filter is set to 'Books' (3,659). The 'Date' filter is set to 'From 1800 To 2019'. The 'Library' filter is set to 'Biochemistry Library' (67). The 'Refine my results' section on the right side of the page provides options for sorting by relevance, availability, resource type, date, and library. Red arrows point from the text annotations to the search bar, the 'All Libraries' dropdown, the 'Online resources' filter, the 'Books' filter, the 'Date' filter, and the 'Christ's College Library' filter.

Refining your search results:

Use the drop-down menu to select items in a particular library (e.g. Christ’s College)

Use the facets to select:

- online/in the library
- type of material
- date
- library

If there is a copy with the status 'Item in place' you can now jot down the shelfmark (QH 581.2.A56 2015) and collect the book from the shelf.

If all copies are on loan you can use the 'request' button (if you are signed into iDiscover). The current reader will then receive an email asking them to return the book to the library within a few days. Once this happens, you will be notified and can come and collect the book.

The screenshot shows a library catalog entry for the book "Molecular biology of the cell." The page includes a book cover, a list of authors, and a "REQUEST OPTIONS:" section. A red arrow points from the text on the left to the "Request" button in the table.

ebooks will appear in the results of a simple search.

If the results show **Online access** in green you will be able to access the resource wherever you are. You will be asked for your Raven login if you are not already signed into iDiscover.

If the results show **Online access restricted** in red you can only access the item on a designated PC in the UL or a faculty library. These are non-print legal deposit resources which are received by the UL as a library of legal deposit and fall under specific 2013 legislation governing their use.

Using Advanced Search

The screenshot shows the University of Cambridge iDiscover search page. At the top, the browser address bar displays the URL: https://idiscover.lib.cam.ac.uk/primo-explore/search?vid=44CAM_PROD&lang=en_US&sortby=rank. The navigation bar includes the University of Cambridge logo, the text 'UNIVERSITY OF CAMBRIDGE', and several menu items: 'IDISCOVER', 'HELP & CONTACT US', 'E-JOURNAL SEARCH', 'DATABASES A-Z', and 'FETCH ITEM'. On the right side of the navigation bar, there are icons for a refresh button, a pin, and a user profile labeled 'Hughes, Samantha'. The main content area features the 'iDiscover' logo. Below the logo, there are three radio button options: 'Cambridge Libraries Collections' (which is selected), 'Articles and online resources', and 'Search everything'. A search input field contains the text 'Search our collections' and a dropdown menu is set to 'All Libraries'. A magnifying glass icon is positioned to the right of the search field. To the right of the search field, there are two links: 'Advanced Search' and 'Browse'. A red arrow originates from the title 'Using Advanced Search' and points directly to the 'Advanced Search' link.

Using subject headings to search by subject

Find one good record – i.e. an item that covers the topic you are interested in -- and open the bibliographic record by clicking the title.

The screenshot displays the iDiscover search interface. At the top, the iDiscover logo is visible. Below it, there are three radio buttons for search scope: 'Cambridge Libraries Collections' (selected), 'Articles and online resources', and 'Search everything'. The search bar contains the text 'intellectual property law bently 2018' and a search icon. To the right of the search bar, there is a dropdown menu for 'All Libraries' and a search icon. Below the search bar, there is a yellow banner with the text 'Sign in to renew or request items', a 'Login to iDiscover' button, and a 'DISMISS' button. The search results section shows '2 Results'. The first result is a book titled 'Intellectual property law / L. Bently, B. Sherman, D. Gangjee and P. Johnson.' with a small image of the book cover. The authors listed are Lionel Bently 1964- author.; Brad Sherman author.; Dev Gangjee author.; Phillip Johnson (Phillip Michael), author. The publication information is 'Fifth edition. Oxford, United Kingdom : Oxford University Press, [2018] ©2018'. At the bottom of the result, it says 'Available at Squire law Library Main Library (J.ss.9.B.11) and other locations >'. There are also icons for quote, email, pin, and more options.

Finding journals and articles

It is possible to search for articles that are available online by using the “Articles and online resources” button in simple search. A good place to start, **but not all articles you have access to are indexed, so you might get no result when you do in fact have access to a particular article.**

If you know the journal title you can put it into a simple search or use the “e-journal search”.

De Vries, J. and Archibald, J. M. (2018) 'Plant evolution: landmarks on the path to terrestrial life', *New Phytologist*, 217(4), pp. 1428-1434.

The screenshot shows a web browser window displaying the University of Cambridge iDiscover search results. The browser's address bar shows the URL: [https://idiscover.lib.cam.ac.uk/primo-explore/search?query=any,contains,\"Plant%20evolution:%20landmarks%20on%20the%20path%20to%20terrestrial\"&tab=online...](https://idiscover.lib.cam.ac.uk/primo-explore/search?query=any,contains,\)

The page header includes the University of Cambridge logo and navigation links: IDISCOVER, HELP & CONTACT US, E-JOURNAL SEARCH, DATABASES A-Z, and FETCH ITEM. The user's name, Hughes, Samantha, is displayed in the top right corner.

The main search area features the iDiscover logo and a search bar containing the query: "Plant evolution: landmarks on the path to terrestrial". Below the search bar, there are three radio buttons for search scope: Cambridge Libraries Collections (unselected), Articles and online resources (selected), and Search everything (unselected). To the right of the search bar are links for Advanced Search and Browse.

The search results section shows 4 results and a Save query button. The first result is a review article:

- 1 REVIEW / multiple sources exist. [see all](#)
- Plant evolution: landmarks on the path to terrestrial life**
- Vries, Jan ; Archibald, John M.
- New Phytologist, March 2018, Vol.217(4), pp.1428-1434
- PEER REVIEWED
- [Full text available](#) >

On the right side of the results, there is a 'Refine my results' section with an unchecked checkbox for 'Expand beyond library collections'. Below this, the results are sorted by 'Relevance' and the availability is shown as 'Peer-reviewed Journals (1)'.

McGregor, S. and Banifatemi, A. (2018) 'Year One of the IBM Watson AI XPRIZE: Case Studies in "AI for Good"', AI Magazine, 39(3), pp. 27-39

The screenshot shows the University of Cambridge iDiscover search interface. At the top left is the University of Cambridge logo. The top navigation bar includes links for IDISCOVER, HELP & CONTACT US, E-JOURNAL SEARCH, DATABASES A-Z, and FETCH ITEM. On the right, there are icons for a refresh button, a pin, and a 'Login to iDiscover' link, along with a 'Menu' dropdown arrow. The main header features the 'iDiscover' logo. Below the logo is a search bar with three radio button options: 'Cambridge Libraries Collections' (selected), 'Articles and online resources', and 'Search everything'. The search bar contains the text 'Year One of the IBM Watson AI XPRIZE: Case Studies in AI for Good' and a dropdown menu set to 'All Libraries'. A search button with a magnifying glass icon is to the right of the search bar. To the right of the search bar, there are links for 'Advanced Search' and 'Browse'. Below the search bar is a yellow banner with the text 'Sign in to renew or request items' and a 'Login to iDiscover' button, followed by a 'DISMISS' button. The main content area displays 'No records found' and a message: 'There are no results matching your search "Year One of the IBM Watson AI XPRIZE: Case Studies in AI for Good"'. Below this, there is a 'Suggestions:' section with a bulleted list of tips: 'Make sure that all words are spelled correctly.', 'Try a different search scope.', 'Try different keywords.', 'Try more general keywords.', and 'Try fewer keywords.'

A journal search for AI Magazine shows online access to this publication

The screenshot shows the University of Cambridge iDiscover search interface. At the top left is the University of Cambridge logo. The navigation bar includes links for IDISCOVER, HELP & CONTACT US, E-JOURNAL SEARCH, DATABASES A-Z, and FETCH ITEM, along with utility icons for refresh, pin, and login. The main search area features the iDiscover logo and a search bar with 'AI magazine' entered. Below the search bar are alphabetical filters from 0-9 to Z, plus an 'OTHERS' option. A yellow banner below the search bar contains the text 'Sign in to renew or request items' and a 'Login to iDiscover' button. The search results section shows 'PAGE 1 1,575 Results'. The first result is a journal entry for 'AI magazine', published by the American Association for Artificial Intelligence in La Canada, CA, from 1980 to 1980. It includes a book icon, a 'JOURNAL' label, and a green 'Online access' link with an external link icon. To the right of the result are icons for quote, email, pin, and a menu. On the far right, there is a 'Refine my results' section with a 'Sort by Relevance' dropdown menu.

Access full text anywhere

Lean Library is a browser extension that delivers an article to you regardless of where you are linking from.

You search for what you need in any number of different places online (Google, Google Scholar, Bing, Baidu, PubMed, academia.edu, JSTOR, iDiscover...). You meet paywalls and frown looking for a place to login, get frustrated with the steps you have to take to open the article and actually read it.

No more! Say goodbye to looking for login buttons on publisher websites or scrolling for your institution's name in dropdown menus. Installing the Lean Library extension is super-easy: simply click on the button below.

Lean Library is really cool - Lean will automatically detect when you are on a website and you have access thanks to the subscriptions of Cambridge University Libraries.

And even neater, making your work easier and faster, Lean will automatically deliver you an Open Access version of an article - if one is available - whenever Cambridge University Libraries do not provide subscription access.

[DOWNLOAD LEAN LIBRARY](#)

When installed on your browser, the Lean Library plugin works by analysing the website URLs you visit. If you have any concerns about this, please see the Lean Library [Privacy Policy](#).

We have designed an [amazing poster](#) - please print it off and display it in your library.
